Student to Faculty Ratio: (CDS I-2) Report the Fall 2010 ratio of full-time equivalent students (full-time plus 1/3 part time) to full-time equivalent instructional faculty (full time plus 1/3 part time). In the ratio calculations, exclude both faculty and students in stand-alone graduate or professional programs such as medicine, law, veterinary, dentistry, social work, business, or public health in which faculty teach virtually only graduate level students. Do not count undergraduate or graduate student teaching assistants as faculty.

314 . Fall 2010 student to faculty ratio: 8.7 to 1 (based on 3030 students and 350 faculty)

315 . Fall 2009 student to faculty ratio (provided for your reference): 8.7 to 1

Undergraduate Class Size (CDS I-3): In the table below, please use the following definitions to report information about the size of classes and class sections offered in the Fall 2010 term. Fall 2009 data provided for your reference.

Class Sections: A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.

Class Subsections: A class subsection includes any subsection of a course, such as laboratory, recitation, and discussion subsections that are supplementary in nature and are scheduled to meet separately from the lecture portion of the course. Undergraduate subsections are defined as any subsections of courses in which degree-seeking undergraduate students enrolled for credit. As above, exclude noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Each class subsection should be counted only once and should not be duplicated because of cross-listings.

Using the above definitions: Please report for each of the following class-size intervals the number of class sections and class subsections offered in Fall 2010. For example, a lecture class with 800 students who met at another time in 40 separate labs with 20 students should be counted once in the "100+" column in the class section column and 40 times under the "20-29" column of the class subsections table.

322 . Unique Qualities during the 2010-2011 academic year.

As part of each entry in a much-expanded directory of colleges and universities, U.S. News would like to feature a brief description of the school's mission and unique qualities. Please provide a thoughtful summary of what makes your school special. What are its special strengths and attributes? What is it not? Maximum number of allowable characters is 4000. We believe that liberal education should instill capacities for critical and creative thinking that can address unfamiliar and changing circumstances, engender a moral sensibility that can weigh consequence beyond self, and establish an enduring love of learning for its own sake. With the help of our faculty, Wesleyan students develop their own unique programs of study, which reflect their own interests and address capabilities we believe are essential to effective participation in a global society. Our faculty are active, well-known scholars, and the community is intellectually lively, so students have resources and support for accomplishing serious scholarly work as undergraduates.

POPULAR MAJORS (CDS J) *The first table below lists the most popular majors for 2009 graduates as reported to U.S. News during 2010 . In the second table below for 2010 Graduates, identify the five majors with the largest percent of bachelor's degrees conferred between July 1, 2009 and June 30, 2010 from your institution by entering the CIP 2010 code next to the name. Then list the percent of students graduating with degrees in those fields. Please visit this link: [CIP 2010 codes](#) and check it carefully before entering data. Only five majors can be entered. U.S. News will only accept CIP 2010 codes for questions 323, 324 and 325. For more information on CIP 2010, visit: <http://nces.ed.gov/cipcode/default.aspx?y=55>*

Note: When reporting majors in Question 324 below, please do not list majors in conjunction with a concentration, emphasis, minor, or subject area. Concentrations, etc., may be reported in question 325.

These two questions use the CIP 2010.

Under the box titled "Majors Available", please click on a subject to highlight the Major category. This will open another box directly below which lists the sub-categories of majors (CIP code numbers with up to 4 digits to the right of the decimal place). The sub-categories are arranged by ascending CIP code number. Highlight a major offered by clicking on it (you may click and drag your mouse to highlight multiple selections). Then, click on the button in the middle column with the arrow pointing to the right. Clicking on this button moves the CIP code number of your selection into the right column titled "Majors Offered". To undo a selection, highlight the CIP code number in the "Majors Offered" column and click on the button with the arrow pointing to the left. There is no limit on the number of majors that can be stored in the "Majors Offered" column. The HTML file will only display the CIP code, not its name. U.S. News will only accept [CIP 2010](http://nces.ed.gov/ipeds/cipcode/default.aspx?y=55) --same as above, for more information on CIP 2010 visit: <http://nces.ed.gov/ipeds/cipcode/default.aspx?y=55>
